Reason for EOL

M-Systems is discontinuing the FFD 3.5" SCSI in high capacities due to limited market demand for drives that offer high capacity with low read/write speeds.

The FFD 3.5" SCSI continues to be available in the lower range of capacities, from 128MB to 3584MB.

The FFD 3.5" Ultra-Narrow SCSI, with performance of 17.0 MB/sec sustained read and 11.5 MB/sec sustained write rates, is available in capacities ranging from 512MB to 34.8GB.
